Welcome to

University of California, San Diego

European Embedded Control Institute International Graduate School on Control 2020

February 3-7, 2020 - Module M02

# TABLE OF CONTENTS

San Diego is a city on the Pacific coast of California known for its beaches, parks and warm climate. Immense Balboa Park is the site of the renowned San Diego Zoo, as well as numerous art galleries, artist studios, museums and gardens.

A deep harbor is home to a large active naval fleet, with the USS Midway, an aircraft-carrier-turned-museum, open to the public.

UC San Diego is a student-centered, research-focused, service-oriented public institution that provides opportunity for all. Recognized as one of the top fifteen research universities worldwide, a culture of collaboration sparks discoveries that advance society and drive economic impact. Our students are committed to public service. For the fifth consecutive year, UC San Diego has been ranked first in the nation based on research, civic engagement, and social mobility. We are one campus with multiple pillars of excellence, a top ten public university that is transforming lives, shaping new disciplines, and advancing the frontiers of knowledge.

Sixteen Nobel laureates have taught on campus. Other stellar faculty members have been awarded the National Medal of Science, Fields Medals, Pulitzer Prizes, MacArthur Fellowships, and many other honors, including a Tony Award and an Academy Award.

UC San Diego's rich academic portfolio includes six undergraduate colleges, five academic divisions, and four graduate and professional schools. The university's award-winning scholars are experts at the forefront of their fields with an impressive track record for achieving scientific, medical, and technological breakthroughs.

As a member of the ten-campus family of the University of California, UC San Diego is widely recognized for its faculty and for its wide range of undergraduate and graduate programs that lead to the bachelor's, master's, MBA, EdD, MD, PhD, and PharmD degrees.

M02 Course is organized is going to take place in Jacobs School of Engineering in a several classrooms. The Irwin and Joan Jacobs School of Engineering is an undergraduate and graduate-level engineering school offering BS, BA, MEng, MS, MAS and PhD degrees. Engineering programs began at UC San Diego during the 1964 academic year with a broad applied science department in the areas of aerospace engineering, solid mechanics, bioengineering, and materials science.

- La Jolla Cove Hotel & Suites

**\*\* When booking, mention the UCSD rate to take advantage of it**

# Balboa Park

Balboa Park is a cultural oasis that includes 17 museums, gardens galore and the world-famous San Diego Zoo. At 1,200 acres, Balboa Park is one of North America's most iconic urban parks and a must see on any visit to San Diego. Located just blocks from downtown San Diego hotels, the park has a rich history reflected through its stunning architecture, thought-provoking exhibits installations, and cultural events throughout the year.

Balboa Park has a storied history – one that is central to the story of San Diego. It started 150 years ago, when civic leaders took the audacious step of setting aside the scrub-filled mesa overlooking downtown to establish a city park. Today, Balboa Park continues to be a potent mix of what makes San Diego so unique. Ethnically diverse, historically rich, culturally abundant, naturally breathtaking, Balboa Park is where you can experience San Diego's past and see its future.

# Torrey Pines State Natural Reserve Park

One of the wildest stretches of land on the Southern California coast, the [Torrey Pines State Natural Reserve Park](#) is dedicated to preserving its namesake, the Torrey Pine tree and other indigenous wildlife in their native environment. A coastal wilderness of pine forests and sandstone canyons, the park offers hiking trails that wind their way along the cliffsand breathtaking views of the Pacific Ocean. Look for seasonal sightings of migrating whales as they travel along the coast.
